- 15 minutes walk to the beach

Full description:

An absolute bargain villa walking distance to one of the best beaches in Marbella! This 4 bedroom (4th bedroom is in the basement area) single level villa is located within Hacienda Las Chapas, only a 5 minute walk to the supermarket and only a little further to restaurants and the beach. This property has stunning sea views from the large living room, kitchen, master bedroom and even the garden. There is also a good sized swimming pool, bar area and separate guest apartment with bathroom and kitchenette located in the basement area. The villa itself could do with some updating but is still in very good and useable condition. A fantastic buy for a family home or rental investment. An early viewing is recommended as this will not be around for long plus the property has tremendous potential with the prospect of extending the villa to a 2nd level which would include around a 50m2 second floor gaining stunning panoramic views to Africa and Gibraltar.
