### **Full description:**

When you see these luxury Miami apartments, you'd be forgiven for salivating. When you see the price, you'll rub your eyes, remove your glasses, tear out your contact lenses. Maybe go for an eye check? Vizcayne offers upmarket luxury in downtown Miami at a price that you probably won't see again in your lifetime.

This is the newest, largest and most prominent landmark on Biscayne Boulevard. Vizcayne's twin 49-storey towers overlook Biscayne Bay and all of downtown Miami. Located at the crossroads between downtown's booming new neighborhood that stretches from the river to the Performing Arts Center and where the growth from Brickell is steadily moving north.

Take your pick – from lofts to penthouses and the widest choice of views and sizes in the city. These studio, one, two and three-bed apartments are a landlord's dream, with plenty of eager renters, modern kitchens and bathrooms, a gated community and luxury at every turn.

Need a change of scene? Take a trip to the rooftop resort, with its THREE swimming pools and three-storey clubhouse that overlooks the bay. The oval-shaped clubhouse comes complete with outdoor running track and steam room.

An entire floor is given over to a fitness centre, with state-of-the-art equipment and a glass-walled yoga and zumba room.

Another full floor is taken up by a plush lounge, billiards and party room with kitchen and bar. The other floor? You'll be disappointed. It's merely a full-service spa with private treatment rooms, steam/sauna and plunge pools.
